and Gynecology

## SONESTA F3

# SONESTA F3

The F3 is a unique procedure table designed for full fluoroscopic imaging of the urinary tract during video Urodynamics procedures, with carbon-fiber support for use with a C-arm. The table has been developed to ensure optimal patient comfort, while focusing on facilitating the positioning of the patient safely and precisely during video fluoroscopy or urology examinations and procedures. The new updated design is optimal for the best hygiene when cleaning.

## NEWS

- ✓ Brand new design
- ✓ Low weight and strong motors with silent and high-speed performance

## Features & benefits of the Sonesta F3

- Radiolucent carbon fiber seat and back for head-to-toe imaging
- Three motors enable unparalleled positioning which provides easier access to and visualization of the perineal area
- This versatile chair easily adjusts from/to standing, seated and supine positions, making it easily accessible to all patients
- The versatility allows the patient to remain in one place during the whole urodynamic test and eliminates the risk of catheters falling out or getting misplaced during transfer or ambulation
- The chair can bare patients up to 551 lbs / 250 kg
